

CLASSIC ADRENALIN BRAKE FLUID DOT 5 SILICONE

Silicone based brake fluid for Harley Davidson

Description

CLASSIC ADRENALIN BRAKE FLUID DOT 5 SILICONE is a silicone-based brake fluid. The Product can be used in a wide temperature range (-55 °C up to +260 °C). **CLASSIC ADRENALIN BRAKE FLUID DOT 5 SILICONE** is non-toxic, provides excellent lubrication for rubber seals and metals and protects against corrosion. It extends the service life of the brake system and is paint compatible.

Application

CLASSIC ADRENALIN BRAKE FLUID DOT 5 SILICONE is safe to use in hydraulic brake and clutch systems of passenger cars, (racing-) motorcycles, Harley Davidson motorcycles, go-karts, Oldtimer and in industrial areas. **Information:** Old brake fluid must be completely remove, because **CLASSIC ADRENALIN BRAKE FLUID DOT 5 SILICONE** is not miscible and compatible with other brake fluids.

Properties

- Silicone base
- hydrophobic (does not absorb moisture)
- non-flammable
- large operating temperature range
- paint compatible
- long lifetime

Product data

Properties	Unit	DOT 5 SILICONE*
Color		Blue-Violet
Density 20 °C	g/cm ³	0.958
Dry boiling point	°C	260
Wet boiling point	°C	180
Low temperature stability	°C	-55
Flash point	°C	>204

* are average values and may vary in the framework of the standard
