

CLASSIC BRAKE CLEANER

Cleaner for use throughout industry, in trade, repair and assembly.

CLASSIC BRAKE CLEANER is used to remove oils, greases, resins, adhesive residues, clutch and brake abrasion, cleaning engine parts, springs, electrical systems, starters, roller bearings and guides, as well as removing stubborn stains from upholstery and textiles. It works without leaving any residue. Compared to the use of thinners, no residue is left behind. Even resinous lubricants are removed.

Application

Apply to the surfaces to be treated with a cloth. For plastics, rubber, paints, textiles and upholstery, test for compatibility on hidden areas.

Advantages

- Removes oil, grease, resin and silicone
- Binds and flushes away abrasive dust
- Ventilates quickly

Properties

Properties	Unit	Value*
Density at 20 °C	g/cm ³	0,714
Colour	-	Colourless
Flash point according to DIN 51755	°C	21
Evaporation coefficient according to DIN 53170	-	3

*are average values and may vary in the framework of the standard.
